POWER TO
DELIVER

HARVEST HEALTHCARE
YOUR FIRST CHOICE...

TOTAL SUPPORT TEAM

We offer a full package to support you from installation to service and repair.

HARVEST FAST TRACK NATIONWIDE DELIVERY

We use our own transport for many deliveries which gives us the flexibility to meet your needs.

SUPERIOR BUILD QUALITY

Our products are built to provide years of service. Using the latest materials and fabrication techniques.

KNOWLEDGEABLE SALES TEAM

Our experienced sales team is always available to help you find the best possible solution.

INNOVATIVE WELL DESIGNED PRODUCTS

Our products are designed to meet the ever changing needs of our customers. We continually provide new solutions.

EXCEPTIONAL VALUE FOR MONEY

Through careful design and production processes you can be assured that our products will provide value for money over their working life.

EXTENSIVE PRODUCT RANGES

To give you the best solution we maintain an extensive range of products for complete flexibility.

COMMUNITY COMMUNITY PLUS

HSMCOM01 COMMUNITY

The Community Static Mattress is a cost-effective comfort mattress for use on profiling beds. The foam is highly resilient and fire retardant. The community mattress provides pressure distribution and can be turned to extend service life.

FEATURES

- Cost-effective
- Highly resilient foam
- Two-way stretch, waterproof, anti-bacterial zipped cover with welded seams
- Shaped to allow profiling
- Can be turned to extend life of the mattress
- Max. User Weight: 21 Stone / 133kg
- Comes with a 3-year warranty

FEATURES

- High quality
- Cost-effective
- Two-way stretch, waterproof, anti-bacterial zipped cover with welded seams
- 'V' cuts to assist profiling
- Max. User Weight: 25 Stone / 158kg
- Additional sizes available on request
- Comes with a 3-year warranty

HSMCOMP01 COMMUNITY PLUS

The Community Plus Static Mattress is built on the Community mattress with higher quality but remaining cost-effective.

The foam is denser and highly resilient, offering better pressure distribution and extra comfort. It also has 'v' cuts to assist profiling.

REFLECT 2 PRIME COMFORT PLUS

STATIC MATTRESSES

5

STATIC MATTRESSES

HFR147 REFLECT 2

The Reflect 2 mattress is a profiling mattress with a castellated viscoelastic top and a firm base.

The castellated viscoelastic foam offers improved immersion and pressure distribution. The firm base gives support and helps with even distribution of weight. There are keyhole slots in the base to aid profiling.

FEATURES

Castellated viscoelastic top and firm foam base

Keyhole slots to aid profiling

Two-way stretch, waterproof, anti-bacterial zipped cover with welded seams

Available in different sizes and in bariatric

Max. User Weight: 39 Stone / 247kg

Comes with a 3-year warranty

PRESSURE RELIEF RISK

FEATURES

Excellent comfort and support
Slots in the base enable profiling

Two-way stretch, waterproof, vapour permeable PU cover with welded seams

Max. User Weight: 39 Stone / 247kg

Different sizes available

Comes with a 3-year warranty

LOW MED HIGH V HIGH

PRESSURE RELIEF RISK

HFR298 PRIME COMFORT PLUS

The Prime Comfort Plus provides excellent patient comfort and support.

A castellated foam core facilitates pressure redistribution and air movement inside the mattress, reducing heat build up. It has a firm foam side wall encasing a resilient central insert, enhancing stability and assisting patient transfer.

Slots in the base enable the mattress to profile.

VISCOFLEX

P161MFP VISCOFLEX

The Viscoflex mattress is a high-resilience mattress, moulded to ensure bonding. The mattress has an anatomically shaped base with a memory foam top. The very high density top increases the contact area and improves pressure distribution with increased depth in sacral areas. The high density base works with the top to enhance support and comfort.

FEATURES

Very high density viscoelastic foam

Uniquely shaped to accommodate bed accessories

Supplied with two-way stretch, fully welded, waterproof, PU coated, polyester cover

Max. User Weight: 20 Stone / 130kg

Comes with a 3-year warranty

FEATURES

Very high density viscoelastic foam

Added multibearing surface

Uniquely shaped to accommodate bed accessories

Supplied with two-way stretch, fully welded, waterproof, PU coated, polyester cover

Max. User Weight: 20 Stone / 130kg

Comes with a 3-year warranty

P161MOP VISCOFLEX WITH MULTIBEARING SURFACE

The Viscoflex Mattress with Multibearing Surface has all the great features of the Viscoflex mattress with an added multibearing surface.

The multibearing surface enables better pressure distribution through the transfer of supports from the areas of low bearing capacity toward areas with high bearing capacity.

STATIC MATTRESSES

P161MFP VISCOFLEX EVOLUTIVE

The Viscoflex Evolutive Static Mattress is our more enhanced mattress in the Viscoflex range.

Positioning specialist foam inserts across key areas of the mattress allows for more pressure relief and comfort. The varying firmness in foam at zonal areas contributes to the additional support.

The visco-elastic memory foam moulds to the users' body shape and the high resilience foam base increases stability.

The multibearing surface enables better pressure distribution through the transfer of supports from the areas of low bearing capacity toward areas with high bearing capacity.

FEATURES

Very high density viscoelastic foam

Uniquely shaped to accommodate bed accessories

Supplied with a two-way stretch, fully welded, waterproof, PU coated, polyester cover

Max. User Weight: 20 Stone / 130kg

Comes with a 3-year warranty

VISCOFLEX AIR VISCOFLEX AIR PLUS AIR

P161MOR VISCOFLEX AIR

The Viscoflex Air Mattress is built on the same base as the Viscoflex mattress, but with an enhanced performance. Polyair cells have been added to the heel area, and a multi-bearing surface to the lower back area. This helps to improve the contact surface and pressure distribution through customised adjustments of the air sections.

Viscoelastic foam moulds to the shape of the body, which not only improves comfort, but also pressure distribution.

FEATURES

Different firmness in foam to zonal areas relative to each part of the body

Supplied with a two-way stretch, fully welded, waterproof, PU coated, polyester cover

Laxprene cells with high elasticity and tearing resistance

Max. User Weight: 20 Stone / 130kg

Comes with a 3-year warranty

INTRODUCING HYBRIDS

HYBRIDS

9

HYBRIDS

Harvest Healthcare offer two hybrid mattresses to suit our customers' needs.

Hybrids enable carers to step up or step down the treatment of patients by either adding or removing a pump. This offers flexibility when caring for patients that could become at risk of a pressure ulcer. It means that users can benefit from the high levels of comfort that foam offers and the pressure relieving of an active mattress when needed.

Using one mattress for both functions helps reduce logistic costs and avoids disruption for the user as there is no need to change the mattress.

PRIME COMFORT ACTIVE

HFR298ACT - PRIME COMFORT ACTIVE

The Prime Comfort Active mattress combines our Prime Comfort Plus with an active air cell component.

FEATURES

Firm 'U' shaped high density foam base for roll prevention and to aid transfers

Castellated soft and resilient central foam insert

10 alternating cells powered by the low noise level pump

Fully welded, antibacterial, waterproof, two way stretch cover

Durable PVC base

Step up step down with/without pump

Comes with a 3 year warranty

HYBRIDS

HFK100 - KINETIC AIR

The Kinetic Air replacement mattress consists of a firm foam outer enclosing 11 interconnected foam filled air cells lying below a soft castellated foam topper

FEATURES

It combines air displacement technologies with the benefits of a static foam mattress.

As the patient moves, internal air pressure is redistributed in the cells through a system of valves.

Distributes patient weight, providing comfort and support.

The foam is key cut to allow the mattress to profile to the bed format.

Comes with a 3 year warranty

ACCESSORIES

Static Mattress Length Extensions

The Static Mattress Length Extensions have been designed for use with our Static Mattress range.

Ideal for use with existing mattresses, the piece will add a further 200mm and close any gaps between the mattress and bed frame.

Once in place, the kit continues to provide pressure relief around the heels and zonal areas.

Complete with the extension kit is a vapour permeable, waterproof cover.

Alternative sizes available.

Specialist Mattress Length Extensions

The Specialist Mattress Length Extension has been designed for our specialist mattress range.

Ideal for use with the Viscoflex mattress range, the extension piece will add a further 200mm and close any gaps between the existing mattress and bed frame.

Best used after extending the length of a bed, the specialist extension allows for continued support around the heels.

Complete with the extension kit is a vapour permeable, waterproof cover.
