

DECONTAMINATION SERVICE

At 24NRG we offer a full decontamination service for all your mattresses. We always conform to the most current legislation and guidance from industry recognised bodies. We segregate all contaminated mattresses entirely from our clean mattresses to avoid cross contamination. Our specialist cleaning equipment and thermal decontamination continues to remove bacteria for up to 72 hours after the cycle has finished.

Collection/Drop off directly to you!

TECCARE[®]
Antimicrobial Technologies
